Summary

Data Insights Analyst proficient in Microsoft Excel, SQL, Python and working knowledge of data manipulation and visualization tools. Enthusiastic about using data to give meaningful insights to drive effective business decisions. I am a self motivated, positive minded individual with an exceptional level of curiosity. My top flairs are Proactivity and Effective Communication.

I recently completed a data analytics bootcamp as well as virtual internship and I am seeking to work with like minds, gain more hands-on experience and move to an advance role in the future.
